6 June 1983

83/5. Measures to mobilize increased resources for the United Nations Development Programme on an increasingly predictable, continuous and assured basis

The Governing Council,

Recalling the central funding role assigned to the United Nations Development Programme in the 1970 Consensus, b/

Reiterating its concern at the alarming decline in the rate of growth of the resources of the Programme,

Reaffirming the urgent need to achieve adequate real growth of the resources of the Programme during the period 1982-1986, as envisaged in the appeal made by the General Assembly in resolution 36/200 of 17 December 1981,

Recalling General Assembly resolution 37/227 of 20 December 1982 on the critical situation of financial resources of the Programme,

Sharing the deep concern noted by the General Assembly in its resolution 37/227 at the result of the 1982 United Nations Pledging Conference for Development Activities and the serious consequences it would have on the proposed programme delivery for the third programming cycle, 1982-1986,

Recalling also Governing Council decision 80/30 of 26 June 1980, and its subsequent decisions 81/16 of 27 June 1981 and 82/5 of 18 June 1982,

b/ General Assembly resolution 2688 (XXV), annex.

Recalling further section II of its decision 82/5, by which it established an intersessional committee of the whole to study measures to mobilize increased resources for UNDP on an increasingly predictable, continuous and assured basis,

Having considered the report of the Intersessional Committee of the Whole (P/1983/5),

I

Longer-term financing of the United Nations Development Programme

1. Decides to adopt the following measures to improve the longer-term mobilization of resources for the United Nations Development Programme:

(a) Appropriate informal intergovernmental consultations will be held prior to the annual United Nations Pledging Conference for Development Activities, and those Governments in a position to do so each year will make firm pledges for the pledging year and indicative or tentative statements on their pledges for the following two years, expressed in special drawing rights (SDRs) if they so choose; other Governments will continue to make annual pledges but on the understanding that all Governments would have regard to the recommendations in subparagraph (c) below;

(b) Prior to establishing the target level of resources for the Programme for a given period, and bearing in mind the technical assistance needs of developing countries, the Administrator will arrange for appropriate informal consultations to be held among all participating Governments to discuss the growth of the Programme, with a view to ensuring the maximum possible planning level consistent with the readiness of participating Governments to provide resources; the outcome of these consultations will be made known to the Governing Council; the Governing Council will take a decision on the overall target for resources and the rate of growth implicit in that target; the objective of these informal consultations shall be to ensure a steady growth in Programme resources, and they shall also aim at increasing the number of significant contributors to the Programme and promoting a more equitable pattern of contributions among the donor countries of the Programme;

(c) It is recommended that all Governments should make their best effort towards the maintenance of the real value of their contributions to UNDP from year to year, as a minimum objective, the calculation of the amount required to maintain the real value being made by each Government in respect of its own contributions, and inform the Administrator of their intentions at the earliest possible time;

2. Requests the Administrator to submit proposals for the consideration of the Governing Council based on the preliminary discussion in the Intersessional Committee of the Whole on the possibility of introducing a three-year rolling system of pledges and programme implementation, without prejudice to the present country programming and indicative planning figure arrangements and the voluntary nature of the Programme;

II

Short-term financing situation

Noting that the Intersessional Committee of the Whole, taking into account the seriousness of the current resource situation and its possible implications for the longer-term aspect of the Programme, examined measures which might alleviate in the shorter term the resource constraints experienced in 1982 and expected in 1983,

1. Notes with appreciation that several Governments have found it possible to provide additional resources beyond the level of contributions originally pledged so as to alleviate the shortfall of resources currently being experienced by UNDP, and expresses the hope that other Governments will find it possible to make similar supplementary contributions;
2. Appeals to all net contributor Governments to consider transferring to UNDP, at the end of their respective fiscal years, development assistance resources which could not be disbursed through other channels in order to meet the short-term financing requirements of UNDP;
3. Urges strongly all Governments participating in UNDP to draw attention in all international forums, conferences and similar assemblies to the present critical financial situation of UNDP and to the need for providing a higher level of resources to it;

III

Other matters that might facilitate the implementation of the measures for the longer-term financing of the United Nations Development Programme including, in particular, options and recommendations for strengthening the effectiveness of the work of the Governing Council

Recalling section II of its decision 82/5 of 18 June 1982, and its mandate to study other matters that might facilitate the implementation of measures to enhance the longer-term financing of the United Nations Development Programme including, in particular, options and recommendations for strengthening the effectiveness of the work of the Governing Council,

- A. Strengthening the role of the Governing Council and participating Governments in programme planning and programme review
 1. Approves the following measures to improve the working of the Governing Council:
 - (a) Briefing meetings and informal consultations between delegations and the UNDP secretariat should continue to be held;
 - (b) Feedback from evaluations and reports on programme implementation into the programme planning process should be enhanced;
 - (c) Greater efforts should be made by the secretariat to adhere to all the relevant rules concerning the provision of concise official documentation to delegations well in advance of sessions of the Governing Council;

Taking into account the views expressed thereon during the thirtieth session of the Governing Council,

1. Notes in particular the concern expressed by the Administrator in the introduction to his report with respect to the proportion of official development assistance devoted to technical co-operation;

2. Welcomes the section of the report on project results, programme accomplishments (DP/1983/6/Add.2) and the expanded statistical annex (DP/1983/6/Add.4 and Corr.1), which provides more detailed data on Programme activities;

3. Requests the Administrator to continue his efforts to provide, in the annual report and by other means, substantial material dealing with the results of the Programme and its impact on the development process in the developing countries;

4. Notes further the information provided by the Administrator with respect to the reports of the Joint Inspection Unit (DP/1983/7 and Corr.1 and Add.1), as well as, in particular, the report of the Joint Inspection Unit on the field offices of the United Nations Development Programme c/ and the relevant comments of delegations thereon;

5. Requests the Administrator to take into account, as appropriate, those recommendations of the Inspectors designed to enhance the quality of programmes and projects supported by UNDP and to increase the overall effectiveness and efficiency of the Programme.

39th meeting
24 June 1983

83/7. Recruitment and reduction of the cost of project professional personnel

The Governing Council,

Having considered the report of the Administrator on the recruitment and reduction of the cost of project professional personnel (DP/1983/8 and Add.1 and Corr.1) and taking note of the views expressed thereon,

1. Invites the executing agencies to continue to improve their policies and procedures for the recruitment of project professional personnel, in particular:

(a) To adopt measures which would facilitate the sharing among executing agencies of relevant roster information in similar fields of work;

(b) To give full consideration to qualified candidates from as many sources as possible when filling project vacancies so as not to limit recruitment to personnel previously employed;

c/ JIU/REP/83/4, transmitted to the Governing Council by a note by the Administrator (DP/1983/67).

Additional and alternative ways of financing and providing development assistance through the United Nations Development Programme and the funds administered by the Programme

Bearing in mind the views expressed in the Intersessional Committee of the Whole and the Governing Council on the provision of management and support services on behalf of Governments, as well as the encouraging action taken by developing countries in support of the essential multilateral character of the Programme, including making such inputs as voluntary local programme costs, support to local office costs, cost-sharing arrangements and funds-in-trust, which strengthen and broaden UNDP action throughout the world,

1. Authorizes the Administrator to provide, with the agreement of the recipient country concerned, and using agency expertise whenever appropriate, management and other support services on behalf of Governments, as set out in paragraph 17, in particular subparagraphs (b), (c) and (d), of the report of the Administrator on the consideration of other questions contained in the Administrator's revised proposals (DP/1983/ICW/13);

2. Requests the Administrator in providing these services:

(a) To take into account the views expressed by Governments in the Intersessional Committee of the Whole (see DP/1983/5) and during the thirtieth session of the Governing Council;

(b) To ensure that the provision of such services shall not be allowed to erode the central multilateral character of the Programme and that the activities remain marginal to government contributions, core resources and the work of implementing the UNDP programme;

3. Requests the Administrator to follow the general guidelines set forth in the note by the Administrator on further clarification of the proposals on management and other support services on behalf of Governments (DP/1983/69) in making charges to donor Governments for such management and support services so as to ensure that these services do not entail any financial implications for UNDP;

4. Requests the Administrator to report annually on the development of these activities;

5. Decides to assess the experience gained after a period of two years.

39th meeting
24 June 1983

83/6. Annual report of the Administrator

The Governing Council,

Having considered the annual report of the Administrator for 1982 (DP/1983/6 and Add.1-4 and Add.1/Corr.1 and Add.4/Corr.1),

(d) Detailed information should be furnished by the secretariat to delegations upon request to help enhance the understanding of the work performed by UNDP;

2. Decides that, for a trial period of three years, the Governing Council shall, in the context of regularly scheduled sessions, resolve itself into a committee of the whole, for the following purposes:

- (a) To consider major issues related to programme matters;
- (b) To review country, regional, interregional and global programmes and projects;
- (c) To review programme and project implementation;
- (d) To consider reports on evaluation studies; and
- (e) To deal with other matters related to the programme management of UNDP;

3. The Governing Council acting in the capacity described in paragraph 2 above shall be presided over by the President of the Council or another member of the Bureau designated by him and in order to facilitate its work and the work of the Council in plenary meetings, shall dispense with summary records and schedule its meetings so as not to coincide with plenary meetings; the presiding officer shall submit a written report to the plenary council;

4. The Governing Council shall, at its thirty-third session, on the basis of the experience gained, review the present decision, with a view to examining the possibility of establishing a programme committee;

B. Arrangements for the evaluation of the results and effectiveness of the Programme

Takes note with satisfaction of the decision of the Administrator to establish a small central evaluation unit in the United Nations Development Programme and to develop a strengthened programme along the lines identified in his note submitted to the Intersessional Committee of the Whole on arrangements for the evaluation of the results and of the effectiveness of the Programme (DP/1983/ICW/6) and notes that the cost of this unit in 1983 would be covered from savings in the 1982-1983 budget through redeployment of existing resources;

C. Measures to promote better understanding of the role and activities and of the resource needs of the Programme

1. Recognizes the need for strengthening of the efforts of the Administrator and his staff, Governments of both recipient and donor countries, and co-operating agencies within the United Nations system to disseminate selective and timely information about the United Nations Development Programme and its programmes, projects and achievements;

2. Agrees that the Administrator should explore and implement the action proposals made in his note on measures to promote a better understanding of the role and activities and the resource needs of the Programme (DP/1983/ICW/7) and report thereon to the Government Council;

(c) To submit to recipient Governments for consideration at least three qualified candidates; and

(d) To keep national recruitment services fully informed about the requirements for the maintenance and updating of rosters and to provide, with the consent of the parties concerned, those services with a list of candidates currently on agency rosters who are nationals of the country of the national recruitment services concerned;

2. Requests the executing agencies to pursue actively appropriate and cost-effective recruitment measures, including the increased use of nationally recruited project professional personnel as well as other alternatives to internationally recruited project professional personnel, and requests the Administrator to promote this objective;

3. Further requests the Administrator to make arrangements for the more active involvement of UNDP in the clearance process to fill vacant UNDP-supported project posts;

4. Further requests the Administrator to take all the necessary steps to achieve the implementation of the recommendations and suggestions for the reduction of the cost of project personnel contained in his report, in particular, to design projects in such a manner that:

(a) The type and level of personnel foreseen in UNDP-supported projects are best suited to accomplish the project objectives;

(b) Short-term personnel are utilized whenever this is the more cost-effective option;

(c) Full consideration is given to the use of United Nations Volunteers;

5. Further requests the Administrator to report to the Governing Council at its thirty-second session on progress achieved in the effective utilization of all available options to reduce the cost of personnel inputs in UNDP-supported projects.

39th meeting
24 June 1983

83/8. Pre-investment activities: evaluation of special training

The Governing Council

1. Takes note of the report of the Administrator (DP/1983/9) and of the relevant views expressed by delegations during the thirtieth session of the Governing Council;

2. Endorses the course of action proposed by the Administrator in paragraph 14 of his report whereby two additional seminars on pre-investment projects will be conducted in each year of the 1984-1985 biennium at an estimated cost of \$320,000.

39th meeting
24 June 1983

83/9. Implementation of the Substantial New Programme of Action for the 1980s for the Least Developed Countries

The Governing Council,

Recalling the Substantial New Programme of Action for the 1980s for the Least Developed Countries, adopted by the United Nations Conference on the Least Developed Countries, d/ held in Paris from 1 to 14 September 1981, as well as General Assembly resolutions 35/205 of 16 December 1980, 36/194 of 17 December 1981 and 37/224 of 20 December 1982, which the Assembly inter alia, urged all donor countries to make adequate special allocations to the Special Measures Fund for the Least Developed Countries of the United Nations Development Programme and to the United Nations Capital Development Fund, or through other suitable channels for the Least Developed Countries, in order to provide extra resources needed by the Governments of those countries,

Recalling Governing Council decision 82/11 of 18 June 1982, in which it, inter alia, reiterated the special role that had been assigned to the United Nations Development Programme in the implementation and follow-up of the Substantial New Programme of Action and urged all States, particularly donor countries, to make all possible efforts to contribute substantially to the Special Measures Fund for the Least Developed Countries and the United Nations Capital Development Fund,

Reaffirming the importance of making available to the least developed countries technical co-operation and capital assistance for the implementation of the Substantial New Programme of Action,

Taking note with appreciation of the contributions pledged by a number of Governments to the Special Measures Fund for the Least Developed Countries and to the United Nations Capital Development Fund,

Noting with deep concern, however, that to date the level of indicative planning figure resources to be made available to Least Developed Countries during the third programming cycle of UNDP has decreased from the level of their illustrative indicative planning figure of \$1,546 billion to \$850 million, thus excluding the full impact that UNDP, as the main source of multilateral technical co-operation for Least Developed Countries, would have in the implementation of the Substantial New Programme of Action,

Further noting with grave concern that the contributions so far pledged to the Special Measures Fund for the Least Developed Countries and to the United Nations Capital Development Fund for 1983 are less than the level of resources made available in 1982,

Taking note of the report of the Administrator on the implementation of the Substantial New Programme of Action for the 1980s for the Least Developed Countries (E/1983/11 and Corr.1) and the measures taken by UNDP to implement the Substantial New Programme of Action, and also taking note with appreciation, in particular, of the important role of UNDP as lead agency in the preparation, at the request of Governments, of country review meetings (round tables) and donor conferences,

d/ United Nations publication, Sales No. E.82.I.8, part one, Sect. A.

of which 10 have been completed with encouraging results and 13 are under preparation for implementation later in 1983 and 1984,

1. Reiterates its appeal to all States, particularly donor countries, to make all possible efforts to increase substantially and effectively their assistance to least developed countries through contributions to the Special Measures Fund for the Least Developed Countries and the United Nations Capital Development Fund, as well as through other suitable channels for the least developed countries;

2. Urges the Administrator to continue to give special attention to increasing UNDP support for the implementation of the Substantial New Programme of Action by assuming, at the request of Governments the function of lead agency in the preparation and organization, in accordance with paragraph 111 of the Substantial New Programme of Action, of round-table conferences and donor conferences, including, inter alia, the organization of negotiations with donor Governments, organizations and financial institutions in preparation of donor conferences, as well as the appropriate follow-up to such conferences;

3. Urges member States to give careful attention to future round-tables and donor conferences and, where possible, to participate and contribute to the success of such round-table conferences, as well as to follow through on pledges;

4. Requests the Administrator to report to the Governing Council at its thirty-first session on the implementation of the present decision.

83/10. Special programmes of assistance: Namibia

The Governing Council,

A

Taking note of the report of the Administrator on special programmes of assistance to national liberation movements recognized in its area by the Organization of African Unity (DP/1983/13),

Recognizing that assistance to Namibia differs from assistance to national liberation movements in that the United Nations regards Namibia as a Territory for which it has the administrative responsibility, through the United Nations Council for Namibia, and that there has been a separate indicative planning figure for Namibia since the end of the first development co-operation cycle,

Decides that information on assistance to Namibia should no longer be included in the annual report of the Administrator on assistance to national liberation movements and requests the Administrator henceforth to submit to the Governing Council a separate report on assistance to Namibia.

29th meeting
18 June 1983

The Governing Council,

Recalling that the General Assembly, by its resolution 2248 (S-V) of 19 May 1967, established the United Nations Council for Namibia as the legal Administering Authority of Namibia until independence,

Further recalling that the General Assembly, by its resolution 2679 (XXV) of 9 December 1970, decided to establish the United Nations Fund for Namibia in order to enable the United Nations Council for Namibia to fulfil its direct responsibility for Namibia and its obligation to assist and prepare the Namibian people for independence,

Cognizant of the repeated appeals of the General Assembly to the executing agencies to waive their agency support costs in respect of projects in favour of Namibia,

Noting that the resources under the indicative planning figure for Namibia are committed and disbursed in close consultation with the United Nations Council for Namibia,

1. Requests the Administrator, in consultation with the executing agencies, to examine the feasibility and financial implications of waiving agency support costs in respect of projects financed from the United Nations Fund for Namibia as called for in General Assembly resolution 37/233 E of 20 December 1982;

2. Requests the Administrator and the executing agencies to treat the contributions from the United Nations Fund for Namibia as government cash counterpart contributions so that the executing agencies will not charge support costs in respect of those contributions in excess of the amount of 3.5 per cent in cases where they have not yet waived their agency support costs in respect of projects financed from the United Nations Fund for Namibia.

of the Governing Council

The Governing Council,

Having considered the oral report on the conclusions reached at the informal consultations convened by the President of the Governing Council on documentation,

1. Requests the Administrator, in July of each year, to divide documents to be prepared for the next session of the Governing Council into four categories:

(a) Those that do not require inputs from parties outside UNDP: these documents should be prepared first and should be submitted to the Department of Conference Services of the United Nations Secretariat by January/February;

(b) Those that require consultations with the agencies: these consultations should be held in November rather than December, so that the documents can be finalized by the end of February;

t/ See ID/B/308, to be issued as Official Records of the General Assembly, Thirty-eighth Session, Supplement No. 16 (A/38/16).

(c) Those that require inputs, including financial data, from the agencies; consultations towards expediting the provision of these inputs should be held with agencies so that the documents in this category will be ready at the latest by the beginning of April;

(d) Country programmes: field offices should be supported by UNDP headquarters to the maximum extent to assist in expediting the processing of these documents;

2. Further requests the Administrator, if after consultations with the Department of Conference Services it is determined that the Department cannot process UNDP documents into all six official languages for circulation in reasonable time before the Council's session, to request the Department to consider contracting out the processing of the documents which it cannot handle and requesting other organizations of the United Nations system and member States to assist in such processing;

3. Recommends the Administrator, in accordance with decision 81/37, of 27 June 1981 to continue the practice of organizing informal briefing meetings for members of the Governing Council prior to its annual session but to attempt to hold these briefings earlier than usual, and further recommends that, for briefing purposes, finalized drafts of the documents should be made available in the working languages of the Council to the extent that this can be arranged, in order to familiarize delegations with the contents well in advance of the annual session;

4. Authorizes the Administrator, for the purpose of implementing the above measures, to spend up to \$200,000 for 1984-1985 to facilitate, in consultation with the Department of Conference Services, the editing, translation, typing and reproduction of documents for the Council;

5. Also recommends the following measures:

(a) The Administrator, as in the past, for each document should draw up a timetable setting forth the dates by which action is to be taken on that document by the bureaux or divisions in UNDP responsible for its preparation;

(b) The timetable should end with a date for transmission of the document to the Department of Conference Services, which date shall be at least 10 weeks before the date of commencement of the session of the Governing Council;

(c) A better monitoring system within UNDP should be put in place to ensure adherence to the timetable.
