FINANCIAL, BUDGETARY AND ADMINISTRATIVE MATTERS

COMPREHENSIVE REVISION OF THE FINANCIAL REGULATIONS AND RULES

Report of the Administrator

SUMMARY

In the present report, the Administrator circulates to the Executive Board the revised UNDP Financial Regulations and Rules (see annex) and provides information about the objectives pursued and the process followed during the comprehensive revision of the UNDP Financial Regulations and Rules. In addition, the Administrator seeks the approval of the Executive Board for the proposed revised Financial Regulations.

The Executive Board may wish to:

(a) Approve the proposed revised Financial Regulations contained in the annex to the present report;

(b) Note the proposed revisions to the Financial Rules contained in the annex to the present report;

(c) Request the Administrator to ensure that any proposed decision submitted to the Executive Board by UNDP that is expected to affect the UNDP Financial Regulations and Rules be accompanied by the proposed revised text of the relevant Regulation and/or Rule.
I. INTRODUCTION

1. The present report provides a description of the process leading to the comprehensive revision of the UNDP Financial Regulations and Rules and sets out the changes made to the UNDP Financial Regulations and Rules and the rationale for those changes. The annex below contains the text of the revised UNDP Financial Regulations and Rules. A table prepared by the United Nations Office of Legal Affairs comparing the current Regulations (UNDP/FIN REG & RULES/Rev.1 and Rev.2) with the proposed revised Regulations and comments of the Office of Legal Affairs is contained in document DP/2000/CRP.5.

2. The Administrator seeks the approval of the Executive Board for the proposed revised Financial Regulations. To that end, the Administrator has submitted all proposed revisions to the current Financial Regulations to the Advisory Committee on Administrative and Budgetary Questions (ACABQ) for its consideration and comments. The United Nations Board of Auditors has also scrutinized the proposed new Financial Regulations and Rules. A recommendation for Executive Board action is contained in chapter VII.

II. STEPS FOLLOWED DURING THE COMPREHENSIVE REVISION

3. At the third regular session 1997, the Administrator reported to the Executive Board in document DP/1997/24 that revised Financial Regulations and Rules would be presented in 1998, as a result of the adoption by the Executive Board of the successor programming arrangements (decisions 95/23 and 96/7) and budget harmonization (decision 97/6).

4. During the preparatory work, it appeared that, in addition to an interim update of some Financial Regulations and Rules, the entire document would benefit from an in-depth revision. The comprehensive revision would reflect the new framework of authority and accountability over financial management arising out of the UNDP 2001 change process, the results of the financial risk assessment completed in 1998, the impact of the reform proposals of the Secretary-General being implemented by UNDP, and other necessary adjustments.

5. In its decision 98/18, the Executive Board approved the interim update of the Financial Regulations. Those interim changes, which are now incorporated in and, therefore, superseded by the comprehensive revision, included a revised structure for UNDP Financial Regulations and Rules as well as changes to the Financial Regulations relating to the harmonized biennial support budget, cost-sharing contributions from non-governmental sources, and the procurement function in UNDP.

6. To ensure that the needs and concerns of all UNDP operational units, at headquarters and in country offices, would be taken into consideration in the comprehensive revision of the Financial Regulations and Rules, internal consultations have taken place at all stages of the process. The United Nations Board of Auditors and the United Nations Office of Legal Affairs were also consulted from the early stages of the project. In addition, a parallel review of all UNDP financial procedures was conducted, with the active participation of
many country office staff members, thus allowing the Administrator to identify some key policy issues, which have been reflected in the revision of the Financial Rules.

7. The proposed comprehensive revision of the Financial Regulations and Rules introduces both editorial and substantive changes. Editorial changes include modifications made to the structure of the document, to the presentation of the information, as well as to the terminology. Substantive changes include both updates incorporated to reflect past decisions made by the Executive Board and policy changes already introduced by the Administrator, as well as new policies for which no clear mandate or policies exist yet and for which the Administrator is seeking the endorsement of the Executive Board.

III. PROPOSED EDITORIAL REVISIONS

New structure

8. The structure of the current Financial Regulations and Rules - 9 chapters and 17 articles - does not facilitate the use of the document. Subjects of a similar nature are addressed in different chapters and articles tend to mix unrelated policies.

9. The proposed new structure of the document, with 8 chapters and 27 articles, aligns the Financial Regulations and Rules with the main management functions used by UNDP to receive, allocate, spend and account for both its regular and other resources. The new structure provides a more logical organization of the information and greater clarity in the lines of accountability for the respective management functions. For example, policies governing the utilization of UNDP resources by executing entities are grouped under a specific chapter and a consistent set of Articles, whereas in the current document, those Financial Regulations and Rules are distributed in different chapters.

Hierarchy between Regulations and Rules

10. Regulations are the policies and mandates determined by the Executive Board to establish the framework within which the Administrator operates; Rules are the operational policies determined by the Administrator for UNDP for the implementation of the Regulations.

11. The review of the current UNDP Financial Regulations and Rules has shown that, in many instances, authority is not placed at the appropriate level, with authorities belonging to the Executive Board framed in Financial Rules and some authorities of the Administrator placed at the Regulation level. In the proposed revision, appropriate adjustments have been made to ensure that the formal hierarchy between Regulations and Rules has been respected.

12. As a result, it is proposed that the content of certain current Financial Rules be upgraded to the level of Regulations:
(a) Rule 101.1 (b) on applicability (now in revised Financial Regulation 2.02);

(b) Rule 104.5 on reporting on utilization difficulties of currencies (now in revised Financial Regulation 5.11);

(c) Rule 104.8 on contributions towards country office costs (now in revised Financial Regulation 9.01);

(d) Rule 104.12 on currency of cost-sharing contributions (now in revised Financial Regulation 5.04);

(e) Rule 108.2 on preparation and consideration of regional programmes (now in revised Financial Regulation 12.05);

(f) Rule 108.3 on resources available for country and regional programming (now in revised Financial Regulation 11.01);

(g) Rule 108.9 on the revision of global projects (now in revised Financial Regulation 18.03);

(h) Rule 108.10 on projects requiring Executive Board approval (now in revised Financial Regulation 16.01);

(i) Rule 108.14 on selection of an executing entity (now in revised Financial Regulation 17.01);

(j) Rule 108.20 (a) and (b) on suspension or termination of UNDP programme activities (now in revised Financial Regulation 17.06);

(k) Rule 109.5 on budgetary contingency provisions (now in revised Financial Regulation 13.10);

(l) Rule 114.27 (b) on management and other support services (now in revised Financial Regulation 9.03);

(m) Rule 114.34 on ownership of property (now in revised Financial Regulation 24.02);

(n) Rule 117.1 on biennial audit (now in revised Financial Regulation 16.07).

13. Conversely, it is proposed that the current Financial Regulation 8.11, dealing with the time at which UNDP approval of programme activities become effective and the current Financial Regulation 8.10 (e) (i) to (v), dealing with the conditions for the selection of governmental, intergovernmental and non-governmental institutions as executing entities, be deleted and replaced by corresponding rules.

14. In addition, in line with efforts to decentralize authority to the appropriate levels, certain authorities contained in the current Financial Rules have been removed from the document and incorporated into the relevant UNDP
procedural manuals (dealing with programming, finance, or administration). This is the case of most dollar limits, which will now be under the full oversight of the Associate Administrator and Assistant Administrators in charge of corporate functions, as delegated to them by the Administrator. Current Rules 108.11 on the delegation of authority to approve UNDP programme activities, 108.13 on the content of agreements with executing entities, 114.7 on the receipt and deposit of moneys, and 114.9 on petty cash advances have also been incorporated into the relevant UNDP manual.

Terminology

15. The terminology of the Regulations and Rules has been updated to reflect the way UNDP business operations have evolved and to ensure consistency in expressions used throughout the document. "Programme country" replaces "recipient Government" and "requesting Government"; "executing agency" replaces "executing agency"; "UNDP programme activities" replaces "UNDP assistance", "UNDP technical cooperation" and "UNDP project"; "regional" replaces "intercountry"; "UNDP mandate" replaces "UNDP purpose", "UNDP aim" and "UNDP objectives".

16. The terminology adopted in Executive Board decision 97/6 on the harmonized budget presentation as contained in document DP/1997/2, and in Executive Board decision 95/23 on the successor programming arrangements has also been introduced throughout the document. Definitions of committing officer, liquidity, UNDP programme activities, verifying officer, voluntary contribution, and working capital have also been introduced.

IV. PROPOSED SUBSTANTIVE CHANGES FOR WHICH MANDATES EXIST

New mechanism for voluntary contributions to UNDP regular resources

17. Revised Regulation 6.05 reflects Executive Board decision 98/23 regarding a UNDP funding strategy, in particular with respect to the designation of the second regular session of the Executive Board as the time when all member countries would announce their voluntary contributions to UNDP for the current year and, to the extent possible, subsequent years.

Resource planning frameworks

18. The implementation of both the successor programming arrangements and the multi-year funding framework adopted by the Executive Board in its decision 98/23 implies a change in the financial planning frameworks used by the Administrator. The revised chapter D - Resource Planning and Financial Authorization - incorporates the policy changes approved in this context. In particular, revised Regulation 10.02 reflects a four-year fixed financial framework that enables the alignment of the years covered by the biennial support budget, the multi-year funding framework, and the country cooperation framework periods.

/...
Execution modalities

19. Over the past years, the shift to national execution has changed the nature of the relationship between the various parties involved in carrying out UNDP programme activities. The current UNDP Financial Regulations and Rules, however, still reflect the earlier situation in which execution was predominantly undertaken by the United Nations specialized agencies. The Financial Regulations and Rules have, therefore, been updated to take into account national execution as well as other emerging execution modalities.

20. Chapter E - Utilization of UNDP Resources by Executing Entities - now reflects the importance of national execution and the changing role played by organizations of the United Nations system in the implementation of UNDP programme activities.

21. Direct execution has also been placed within a more clearly defined accountability framework. In particular, and in accordance with Executive Board decisions 94/28 and 98/2, revised Regulation 17.05 provides that UNDP shall be designated as executing entity only when it can be demonstrated that it is essential to safeguard the full responsibility and accountability of the Administrator for the effective delivery of UNDP programme activities. In revised Rule 117.03, the Administrator specifies that UNDP shall limit its role as executing entity to countries in special development circumstances and sets the delegation of authority for the approval of the direct execution modality. While the Administrator recognizes that the latter limitation was set by the Executive Board in the text of its decision 98/2, in order to allow the Administrator to use direct execution in a situation created by operational exigencies, it is proposed that this specific limitation be maintained at the Rule level.

Framing of the respective authorities of UNDP corporate functions

22. The current Financial Regulations and Rules in many instances lack clarity about the various lines of accountability and delegation of authority from the Administrator through the Associate Administrator and Assistant Administrators to the UNDP staff authorized to act on behalf of the organization.

23. At the Regulation level, revised Regulations 2.01, 3.01, 5.01, 10.01, 21.01, 24.01 and 25.01 specify the overall responsibility and accountability of the Administrator for each broad management function of UNDP.

24. At the Rule level, direct delegation of authority by the Administrator to the Associate Administrator and to specific Assistant Administrators are described for internal control (revised Rules 103.01 and 103.02); mobilization of other resources (revised Rules 107.01 and 108.01); resource planning and allocation (revised Rule 110.01); utilization of resources by executing entities (revised Rules 116.02 and 117.01); commitment of funds (revised Rule 120.01); procurement (revised Rule 121.01); verification for payments (revised Rule 122.01); assets management (revised Rule 124.01); cash management (revised Rule 125.01); and accounting (revised Rule 126.01).
Simplified resource-assignment process for selected countries

25. In some countries and territories eligible to benefit from UNDP programme activities, and in particular in small island countries, to which relatively modest levels of regular resources are assigned, the traditional formulation and approval process leading to the approval of the country cooperation framework has proven to place a disproportional burden on both the Governments and UNDP country offices.

26. It is therefore proposed that, through revised Regulation 12.02 (c), the Administrator be authorized to simplify the preparation and approval process of country cooperation frameworks for those countries and territories eligible to receive UNDP resources for which the assigned level of TRAC-1 resources is below a threshold to be set by the Administrator.

Cost-recovery

27. In its decision 98/2, the Executive Board provides the principles to guide cost-recovery by UNDP for services rendered by the organization to support national execution. The revised Financial Regulations and Rules incorporate those principles and expand the scope of cost-recovery to include the support services provided by UNDP to activities financed by organizations of the United Nations system and for which no provision exists in the UNDP biennial support budget.

28. It is therefore proposed that, through revised Regulations 15.01 to 15.03, the Administrator be authorized to provide such support services and to make adequate arrangements for the reimbursement of related costs incurred by UNDP.

Payment of execution fees to non-governmental organizations

29. In current Regulation 8.10 (f), only executing entities authorized by the Executive Board may be reimbursed for their support costs. While this Regulation, now numbered as revised Regulation 18.06, regulates the support-cost arrangements for organizations of the United Nations system, the principles governing the reimbursement of actual costs associated with the implementation of UNDP programme activities under other execution modalities are not clearly articulated in the current Financial Regulations and Rules.

30. It is therefore proposed, with a view to accommodating the practice of payments by UNDP of an execution fee under the non-governmental organization execution modality, that, through revised Regulation 18.06, the Administrator be authorized to reimburse to entities outside of the United Nations system the costs associated with the implementation of UNDP programme activities. Revised Rule 118.05 explicitly maintains the policy whereby executing entities of a programme country Government are not eligible for the reimbursement of such costs.

Revised policy on expenditure control

31. In order to strengthen the control systems of UNDP and to mitigate financial risks, the expenditure control processes in UNDP must be adjusted to
the greater decentralization of many authorities. The Administrator has introduced a new policy on expenditure control to assist UNDP staff members to whom financial authority has been delegated.

32. The aim of the new policy is to simplify the expenditure control processes and at the same time clarify the assignment of responsibilities and strengthen the separation of duties for every given financial transaction, undertaken by the various staff members who have been authorized to act on behalf of the organization.

33. At the Regulation level, revised Regulation 20.02 explicitly establishes the separation of duties between staff members to whom financial authorities have been delegated as the basis for internal control. The proposed revised Financial Regulations also clarify the purposes of the three distinct functions of commitment of funds (revised Regulation 20.03), verification for payments (revised Regulation 22.01) and receipt and disbursement of funds (revised Regulation 25.02).

34. The revised Financial Rules describe further the initial delegation of those financial authorities from the Administrator to the Chief Procurement Officer and to the relevant officials responsible for financial management. Principles relating to the responsibilities of each one of the new functions of committing officers (replacing certifying officers), verifying officers (replacing approving officers) and disbursing officers (replacing signatory panels) are also described in revised Financial Rules 120.01, 122.01, 122.02, 125.03.

New procurement framework

35. Procurement is a major area of focus in the common services initiative included in the reform proposals of the Secretary-General. The working group on procurement, established under the Inter-Agency Task Force on Common Services, has developed a set of harmonized procurement-related regulations and rules. Overall, the proposed revised Regulations and Rules place a greater emphasis on the overall guiding principles for procurement while providing a greater authority for the Chief Procurement Officer to develop specific procurement procedures.

36. The Regulations and Rules proposed by the United Nations working group have been integrated into the UNDP Financial Regulations and Rules, with minor amendments necessitated by conditions specific to UNDP. For example, a clear delineation of authority has been introduced between the authority to procure services rendered by individuals in direct contract with UNDP (i.e., special service agreements and reimbursable loan agreements), delegated directly to the head of personnel services, and the authority to procure goods and other services, delegated to the Chief Procurement Officer.

Other resources reserve

37. Revised Regulation 25.06 (b) reflects Executive Board decision 99/9 regarding the establishment of a reserve for other resources activities.

/...
Increased dollar limits

38. It is proposed, in revised Regulation 23.01, to increase the authority of the Administrator to approve ex gratia payments up to $50,000 (compared to the current limit of $40,000) to take inflation into consideration.

39. As noted in paragraph 14, a number of authorities limited by the specific amount involved have been moved to the level of procedures; certain dollar limits have, however, been maintained at the level of Rules in order for the Administrator to continue to exercise strict control. Revised financial limits have been introduced to take into account inflationary factors. In revised Rules 126.13 and 126.16, the Administrator specifies that any write-off of losses in excess of $100,000 shall be submitted to him and sets the amount authorized for waiver of investigation on a write-off at $1,000. In revised Rule 126.10, the Administrator asks that adjustments above $50,000 on financially completed projects be submitted to the Assistant Administrator, Bureau for Financial and Administrative Services.

V. PROPOSED SUBSTANTIVE CHANGES FOR WHICH NO CLEAR MANDATE EXISTS

Grant modality

40. Under the current Financial Regulations and Rules, for UNDP to enter into a direct partnership with an institution and provide resources to such institution, an executing entity agreement governed by UNDP policies on the designation of executing entities, or a regular contract governed by UNDP policies regarding procurement of services must be signed.

41. In some instances, particularly time-bound efforts in the country cooperation framework, neither of the above two modalities is fully suitable, e.g., for the preparation of the national human development report by a specific national research institute or the strengthening of the capacities of a specific institution asked to play an active role in the implementation of a larger programme activity. In such cases, UNDP must either develop a small stand-alone project, channel funds through the executing entity of another programme activity, or follow a lengthy and sometimes inappropriate process to request a waiver of competitive bidding. In all cases, this results in implementation delays and in a heavy and costly administrative process.

42. To avoid those situations, the Administrator proposes the establishment of a new type of partnership agreement through expanding the use of the existing grant modality. This proposal is consistent with the emphasis placed on the role of UNDP in leveraging partnerships in programme countries and is also motivated by the successful implementation of the Global Environment Facility Small Grant Programme.

43. The current Regulation 8.12 authorizes the Administrator to incorporate micro-capital grants to UNDP programme activities. It is proposed, through revised Regulation 19.01, to authorize the Administrator to expand the scope of the grant modality beyond micro-capital grants and to incorporate grants to governmental and non-governmental organizations (excluding commercial and other
for-profit entities) into UNDP programming activities, with the approval of the
Government.

44. Revised Rule 119.01 spells out the proposed delegation of authority and
reporting mechanism for such grants. Detailed procedures will be established to
guarantee a collegial selection process of the grant beneficiaries and phased
payment of each grant based on the achievement of expected results, in line with
the UNDP results-based management policy.

Non-governmental organization execution

45. As the Administrator informed the Executive Board in DP/1997/CRP.8, UNDP
has expanded, with government agreement, the use of non-governmental
organizations for the execution of UNDP programme activities where this modality
presented advantages for UNDP-assisted programmes. While the mandate to use
this new execution modality is embedded into the current Regulation 8.10 (e),
the Office of Legal Affairs has advised that UNDP seek confirmation of its
mandate. To that end, it is proposed that, through revised Regulation 17.04,
the Administrator be authorized to select an intergovernmental or
non-governmental organization as executing entity, provided it has operational
and managerial capacity, can provide the needed services in a cost-effective
manner, and can ensure its accountability to the Administrator. Other
conditions under which non-governmental execution would be authorized have been
included in revised Financial Rule 117.04 and in the new Programming Manual,
where adequate procedures for non-governmental organization execution have been
developed.

Limited authority to advance regular resources

46. The Executive Board has instructed UNDP that cost-sharing contributions (in
current Regulation 4.15 (b)) and trust funds contributions (in current
Regulation 5.2) shall be paid in advance of the implementation of the relevant
UNDP programme activities. The principle that other resources can be accepted
only on a fully funded basis has proven in certain cases to be an obstacle to
effective programme implementation. Donors often request the flexibility from
UNDP to start the implementation of the activities ahead of the actual payment
of the contributions.

47. It is therefore proposed, through revised Regulation 16.03, that the
Administrator have a limited authority to advance funds from regular resources
prior to the receipt of anticipated contributions to other resources, to the
extent that such advances, in the event of default, could be covered by the
regular resources available for programming under that respective country,
regional or global cooperation framework.

Authority to establish credit facilities

48. In the course of its normal operations, UNDP needs to deal with
organizations that require credit arrangements, such as internal lines of credit
with commercial banks for UNDP to operate on the financial markets. In revised
Regulation 25.08, it is proposed that the Administrator be authorized to
establish such credit facilities, which will be fully collateralized so as to avoid any borrowing of resources.

VI. IMPLEMENTATION OF THE REVISED FINANCIAL REGULATIONS AND RULES

49. Should the Executive Board wish to approve the Financial Regulations, the Administrator will then issue the proposed revised Financial Rules, in accordance with revised Financial Regulation 2.02.

50. The Administrator believes that the proposed comprehensive revision will increase the user-friendliness of the Financial Regulations and Rules and further strengthen the internal control and accountability of UNDP.

51. The release of the revised Financial Regulations and Rules, followed by the release of a revised Finance Manual, will be supported by learning instruments enabling UNDP staff members to grasp quickly the nature of the changes introduced and to comply with the new financial policies.

52. As a measure to facilitate the continuous updating of the Financial Regulations and Rules and accompanying procedures, it is proposed that any Executive Board decision that has an impact on UNDP Financial Regulations and Rules be accompanied by the respective proposed changes in the relevant Financial Regulations and/or Rules.

VII. EXECUTIVE BOARD ACTION

53. The Executive Board may wish to:

1. Approve the proposed revised Financial Regulations contained in the annex to the present report;

2. Note the proposed revisions to the Financial Rules contained in the annex to the present report;

3. Request the Administrator to ensure that any proposed decision submitted to the Executive Board by UNDP that is expected to affect the UNDP Financial Regulations and Rules be accompanied by the proposed revised text of the relevant Regulation and/or Rule.
