ANNEX (containing tables 1-14, and figures 1-6)	6

A. Introduction

1. The Executive Director presents in this report a summary of the financial situation of the United Nations Population Fund (UNFPA) for 1996.
2. For comparison purposes, financial information pertaining to 1995 is also included in the text and tables of this report. Tables 11, 12 and 13 highlight financial trends for the past 10 years.

B. Overview

3. Table 1 shows a comparison of income and expenditures for 1995 and 1996. Total income in 1996 amounted to \$308.8 million and total expenditures to \$300.3 million. This resulted in an excess of income over expenditure of \$8.5 million. However, surplus general resources brought forward from 1995 amounted to \$23.7 million. Thus, after adjusting for surplus income in 1996 and transferring \$5 million to the Global Contraceptive Commodity Programme (GCCP), unspent general resources to be carried forward to 1997 total \$27.2 million.

C. Income

4. Total income in 1996 decreased by \$3.8 million (1.2 per cent) from the 1995 income level (\$312.6 million). Total contributions pledged by 95 Governments in 1996 were \$302.6 million, a small decrease of \$0.2 million in dollar terms from the previous year (1995: \$302.8 million). Table 3a includes a summary of donor pledges for 1996 as compared to 1995; table 3b includes donor pledges and payments for 1996. Of UNFPA's major donors, significant increases in contributions were pledged by Australia, Belgium, Denmark, Finland, Italy, Japan, the Netherlands and the United Kingdom. The cumulative outstanding balance of unpaid pledges for 1996 and prior years is \$70.9 million. Of this amount, approximately \$54.4 million relates to a pledge for 1996, which was received on 27 January 1997. Another \$15.2 million relates to the balance of a 1996 pledge, which is being paid in installments through September 1997.

5. Throughout 1996, UNFPA's cash holdings were maintained in relatively stable major currencies, such as the United States dollar. Interest income amounted to \$5.1 million (1995: \$7.6 million), while other miscellaneous income and adjustments, including gains and losses on currency exchange, totaled \$1.0 million (1995: \$2.2 million, see table 1).

D. Programme expenditures

6. As shown in table 4, total project expenditures in 1996 were \$216.5 million (1995: \$230.9 million), a decrease of \$14.4 million (6.2 per cent). United Nations agencies (including the regional commissions) executed projects amounting to \$27.2 million (1995: \$37.0 million), constituting 12.6 per cent of total project expenditures in 1996. Table 4 also shows the percentage breakdown of project expenditures by United Nations executing agencies for 1995 and 1996. Governments,

assisted by UNFPA country offices, executed projects amounting to \$65.4 million in 1996 (1995: \$50.6 million), representing a substantial increase (29.2 per cent) over 1995, and accounting for 30.2 per cent of total project expenditures in 1996. UNFPA-executed projects totalled \$91.1 million in 1996 (1995: \$108.6 million), a decrease of 16.1 per cent. Of this amount, \$31.5 million (1995: \$46.4 million) is in respect of procurement assistance undertaken on behalf of Governments. Expenditures for projects executed by non-governmental organizations (NGOs) (which includes intergovernmental institutions and other agencies) decreased by 5.8 per cent from 1995 to \$32.7 million in 1996 (1995: \$34.7 million), constituting 15.1 per cent of project expenditures.

7. Table 5 shows 1996 expenditures by executing agency and by major expenditure component of the project budgets. It indicates that the major components of UNFPA projects consist of personnel services, 27 per cent, and equipment and supplies, 26 per cent (1995: 23 per cent and 34 per cent, respectively).

8. Table 6 provides a breakdown of costs, by executing agency, of technical support services (TSS) and administrative and operational services (AOS) for 1996, which totalled \$31.1 million (1995: \$30.9 million), or 10.4 per cent of total expenditure. TSS costs amounted to \$23.5 million; AOS, \$7.6 million.¹

9. Table 7 shows total project expenditures by country for 1995 and 1996.

10. Programme expenditures, including TSS and AOS, in 1996 (\$247.5 million) constituted 82.4 per cent of total expenditure (1995: \$261.9 million, or 83.9 per cent of total expenditures).

E. Administrative and programme support services (APSS) expenditures

11. The total net APSS expenditure in 1996 amounted to \$52.8 million (1995: \$50.1 million). Of this amount, headquarters net administrative costs totalled \$13.3 million (4.4 per cent of total expenditures), after the application of income credits totalling \$5.3 million.² Programme support costs, including total country office costs, amounted to \$39.5 million, \$27.6 million (1995: \$25.3 million) of which was incurred by country offices, and the remainder (\$11.9 million) at

¹ Total AOS costs comprise three elements: (a) reimbursements to United Nations executing agencies for support costs - \$1.6 million; (b) payment of overhead charges to non-governmental organizations (NGOs) executing UNFPA-financed projects - \$1.1 million; and (c) reimbursements to UNFPA for support costs (\$3.3 million) and procurement services (\$1.5 million) provided to government-executed projects - \$4.8 million.

² These income credits are in respect of income earned by UNFPA for support costs (\$3.3 million) and for procurement services (\$1.5 million) provided to government-executed projects, and for projects executed under trust fund arrangements (\$0.5 million).

headquarters.³ Tables 12 and 13 show the historical distribution between headquarters and country offices, and between administrative and programme support costs, respectively. The net APSS expenditure in 1996 shows a slight increase in comparison to 1995 when measured as a percentage of total income or expenditure. An analysis of the 1996 expenditure by component is contained in table 8.

F. Status of reserves

12. Operational reserve. At its thirty-eighth session, the Governing Council decided (in decision 91/36) that the level of the operational reserve should be set at 20 per cent of regular resources income for each year of the UNFPA work plan and that the level of the reserve would be reviewed every other year. In accordance with this decision, the operational reserve was increased from \$53 million to \$63 million in 1996. In December, as a result of the late receipt of contributions from a major donor, UNFPA had to draw down from the operational reserve to finance on-going activities. The unencumbered balance of the operational reserve was approximately \$43.1 million as at 31 December 1996. In January, the operational reserve was fully restored to its \$63 million level.

13. Field office accommodation reserve. A reserve for field office accommodation amounting to \$5 million was approved by the Governing Council for 1992-1993 (decision 91/36, para. 17). An amount of \$1 million was utilized in 1994 towards the cost of construction of common premises for organizations of the United Nations in Cape Verde, Guinea-Bissau, Maldives and Sao Tome and Principe. No further payments were made, pending completion of the on-going UNDP review of its Reserve for Field Accommodation.

G. Liquidity position

14. As at 31 December 1996, UNFPA held cash and investments amounting to \$106.0 million, which included \$47.1 million in investments of the reserves (1995: \$67.0 million) and \$58.7 million in investments for trust funds (1995: \$48.7 million) (table 2). As stated in paragraph 12 above, and in accordance with UNFPA Financial Regulation 12.2, UNFPA was required to utilize the operational reserve to finance on-going activities pending receipt of contributions pledged for 1996.

H. UNFPA trust funds

15. Table 9 shows that in 1996 total income from donors and other sources for projects financed by trust funds, including those funded through multi-bilateral sources, and from procurement

³ The APSS budget consists of four programmes. Administrative costs include programmes I (executive direction and management) and II (administration, information and external relations services and programme coordination). Programme support costs that are exclusively devoted to programme development and implementation include programme III (programme planning, appraisal and monitoring) and programme IV (which consists of UNFPA's country offices). For future biennia starting with 1998-1999, the budget will follow the format and guidelines approved by the Executive Board in decision 97/6 on the harmonization of the budgets of UNDP, UNICEF and UNFPA.

services was \$49.3 million (1995: \$33.1 million). Total expenditures from trust funds were \$33.1 million (1995: \$33.3 million).

16. As at 1 January 1996, the unexpended balance of the trust funds was \$23.7 million, which, when added to total income of \$49.3 million received in 1996, resulted in a total amount available for programming of \$73.0 million. The unexpended balance as at 31 December 1996 of \$39.9 million is available to finance trust fund activities in 1997. Table 10 shows programme expenditures from trust funds by country for 1995 and 1996. These figures include project costs and support costs paid by trust funds.

Source: UNFPA year-end Audited Financial Statements for 1987 to 1995, and Unaudited Financial Statements for the year 1996. Official Records of the General Assembly: Forty-second Session to Fifty-first Session, Supplements No. 5G(A/42/5/Add.7 to A/51/5/Add.7).

- a_ / This category comprises, inter alia, support costs to UNFPA for procurement services provided and overhead charges assessed by UNFPA to Government-executed projects. Beginning with the biennium 1986-1987, these support cost credits have been applied to the APSS budget as approved by the Governing Council in decision 86/35, paragraph 10. (In previous years these costs were included under programme expenditures.)
- b_ / In 1985, and prior years, all field costs were included in programme expenditures. Beginning with the APSS biennial budget for 1986-1987 the APSS expenditure is net of credits reported in footnote 2 of the text (see para. 11). In 1986 and 1987 the salary costs of UNFPA international field office staff were included in the APSS budget, and all other costs of the UNFPA field offices were reported under programme expenditures. Since January 1988, all field office costs are included in the APSS budget.
- c_ / The current successor support-cost arrangements began in 1992. A breakdown of technical support services (TSS) costs and administrative and operational services (AOS) costs for United Nations agencies, UNFPA and NGOs, including intergovernmental institutions and other agencies, is contained in table 6.

a_ / See paragraph 11, footnote 3.

b_ / In 1985, and prior years, all field costs were included in programme expenditures. Beginning with the APSS biennial budget for 1986-1987 the APSS expenditure is net of credits reported in footnote 2 of the text (see para. 11). In 1986 and 1987 the salary costs of UNFPA international field office staff were included in the APSS budget, and all other costs of the UNFPA field offices were reported under programme expenditures. Since January 1988, all field office costs are included in the APSS budget.
