I. INTRODUCTION

1. In the present report, the Administrator provides information to the Executive Board about his strategy for a comprehensive revision to the UNDP Financial Regulations and Rules (UNDP/FIN REG & RULES/Rev.1 and Rev.2), which is expected to be presented to the Executive Board in 1999. In addition, the Administrator seeks the approval of the Executive Board for interim changes to financial regulations on the biennial support budget, cost-sharing, and procurement. A recommendation for Executive Board action is contained in chapter IV.

II. STRATEGY FOR A COMPREHENSIVE REVISION

2. At its third regular session 1997, the Administrator reported to the Executive Board in document DP/1997/24 that revised Financial Regulations and Rules would be presented in 1998, as a result of earlier actions by the Executive Board with respect to the successor programming arrangements for UNDP and on the harmonization of the biennial support budget, and to make other necessary adjustments. During the preparatory work, however, it was recognized that only a few areas of the Financial Regulations and Rules would benefit from immediate updating. Other Financial Regulations and Rules required in-depth revision to reflect the new structure of authority and accountability over financial management arising from UNDP 2001 change process; the significant growth of other resources (non-core), as discussed at the first regular session 1998; the implementation of successor programming arrangements; the results of the financial risk assessment being undertaken by UNDP; and the impact of the reform proposals of the Secretary-General being implemented by UNDP. Finally, the funds administered by UNDP as well as the United Nations Office for Project Services (UNOPS) currently rely on the UNDP Financial Regulations and Rules, and they have yet to be brought into the discussion. It is now estimated that the work to complete the comprehensive revision will continue well into 1999.

3. The strategy comprises a sweeping restructuring of the UNDP Financial Regulations and Rules in order to align them with the manner in which UNDP receives, allocates and spends both its regular and other resources, for programme activities, for programme support, for management and administration, and for support to operational activities of the United Nations. With the restructuring of UNDP under UNDP 2001, responsibility and accountability for the mobilization of resources rests primarily with the Bureau for Resources and External Affairs. The responsibility and accountability for the allocation of resources rests with the newly established Bureau for Planning and Resource Management. The responsibility and accountability for expenditure rests with the Bureau for Financial and Administrative Services. By aligning the structure of the Financial Regulations and Rules with this operational and managerial accountability structure, the logic and maintenance of the document will be facilitated. The Bureau for Financial and Administrative Services, through its Policy and Control Unit, is responsible for this process.

4. Annex I provides the basic structure of the proposed revision to the UNDP Financial Regulations and Rules. The Administrator expects that most of the changes will result from the introduction of new definitions and from
renumbering as sections are moved to accommodate the new structure. The most significant effort will be at the level of Financial Rules, which reflect the imperatives of the Administrator, under the overall policy directions established by the Executive Board in the Financial Regulations.

5. In accordance with Financial Regulation 1.2, the Administrator will present the comprehensive revision of the Financial Regulations for the approval of the Executive Board. The Administrator will obtain the views of the Advisory Committee on Administrative and Budgetary Questions (ACABQ) on all proposed revisions of Financial Regulations. Once the Executive Board approves the Financial Regulations, the Administrator will be in position to issue revised Financial Rules, pursuant to Financial Regulation 14.1 (a), circulating them to the members of the Executive Board for information at least 30 days before they become effective.

6. UNDP has been very active in the harmonization efforts emanating from the reform initiative of the Secretary-General. It is expected that under the aegis of common services, there will be a need for many more changes, and this will also have an impact on how UNDP progresses in its revision of the Financial Regulations and Rules. UNDP has proposed to the United Nations Executive Coordinator for Common Services that the harmonization of the Financial Regulations and Rules be an item for action by all the relevant organizations.

III. PROPOSED REVISIONS FOR THE PRESENT SESSION

7. Annex II contains the proposed changes to those Financial Regulations for which the Administrator is seeking the approval of the Executive Board at the current session. These proposals have been made in consultation with the United Nations Office of Legal Affairs. A copy of the present report has also been submitted to ACABQ for its consideration and comments.

Harmonized biennial support budget

8. In decision 97/6, the Executive Board approved the harmonized presentation of the biennial support budget for UNDP and other funds and programmes. Consequently, the Administrator is proposing revisions to update the definition of categories of resources and the related accounts, and other operational matters. The source of changes to definitions is annex I of document DP/1997/2, which provided the basis for decision 97/6. In accordance with paragraph 3 of document DP/1997/2, the new terminology was provided to the Consultative Committee on Administrative Questions in 1997 prior to finalization of the proposed Financial Regulations in the present document. As noted above, the proposed changes to the Financial Regulations may be found in section A of annex II of the present document.

Cost-sharing contributions from non-governmental sources

9. In its decision 96/39, the Executive Board approved a revision to Financial Regulation 2.2 C (iii), expanding the definition of "contribution" to include in cash or in-kind assistance provided by a non-governmental source. During the current review of Financial Regulations, it was noted that the Administrator did
not make the corresponding revision to the definition covering contributions for cost-sharing. This omission is being addressed presently. The proposed change may be found in section B of annex II of the present document.

Procurement functions

10. UNDP has participated extensively in the common services initiative included in the reform proposals of the Secretary-General. One major area of focus is procurement, for which a working group of the United Nations Secretariat and the funds and programmes has been developing a harmonized set of regulations and rules. At this stage, the Administrator proposes to replace the current Financial Regulation 14.5 with two new Regulations developed under this collaborative effort. The additional Regulation would raise the basic, general principles for procurement from the level of rule (currently Financial Rule 114.18) to the appropriate level of regulation, consistent with the General Assembly resolutions cited in the current Regulation 14.5. The proposed changes may be found in section C of annex II of the present document.

IV. EXECUTIVE BOARD ACTION

11. The Executive Board may wish to:

1. **Note** the proposed revised structure for the UNDP Financial Regulations and Rules contained in annex I of document DP/1998/32;
