### A. Introduction

1. The Executive Director presents in this report a summary of the financial situation of the United Nations Population Fund (UNFPA) for 1995. The audited financial statements and financial report of the Executive Director for the biennium ended 31 December 1995 were submitted to the Board of External Auditors in April 1996 and will be transmitted by the Chairman of the Board to the President of the General Assembly in August 1996.

2. For comparison purposes, financial information pertaining to 1994 is also included in the text and tables of this report. Tables 11, 12 and 13 contain a summary highlighting information on financial trends for the past 10 years.

### B. Overview

3. Table 1 shows a comparison of income and expenditures for 1994 and 1995. Total income in 1995 amounted to \$312.6 million and total expenditures to \$312.1 million. This resulted in an excess of income over expenditure of \$0.5 million. However, surplus general resources brought forward from 1994 amounted to \$33.1 million. Thus, after adjusting for surplus income in 1995, and a transfer of \$10 million to the operational reserve, the result is that the unspent general resources to be carried forward to 1996 amounted to \$23.7 million.

### C. Income

4. Total income in 1995 increased by \$47.3 million (17.8 per cent) above the 1994 income level (\$265.3 million). Total contributions pledged by 85 Governments in 1995 reached \$302.8 million, an increase of \$47.6 million (18.7 per cent) in dollar terms (1994: \$255.2 million). Table 3a includes a summary of donor pledges for 1995 as compared to 1994. Of UNFPA's major donors, significantly increased contributions were received from Belgium, Denmark, Finland, Germany, Japan, Netherlands, Norway, and the United Kingdom. The cumulative outstanding balance of unpaid pledges for 1995 and prior years is \$629,637.

5. Through 1995, UNFPA's cash holdings were maintained in relatively stable major currencies, such as the United States dollar. Interest income amounted to \$7.6 million (1994: \$6.8 million), while other miscellaneous income and adjustments, including gains and losses on currency exchange, totalled \$2.2 million (1994: \$3.3 million, see Table 1).

#### D. Programme expenditures

6. As shown in table 4, total project expenditures in 1995 were \$230.9 million (1994: \$201.4 million), an increase of \$29.5 million (14.6 per cent). The United Nations executing agencies (including the regional commissions) executed projects amounting to \$37.0 million (1994: \$37.2 million), constituting 16.0 per cent of total project expenditures in 1995. Table 4 also shows the percentage breakdown of project expenditures by United Nations executing agencies for 1994 and 1995. Governments, assisted by UNFPA country offices, executed projects amounting to \$50.6 million in 1995 (1994: \$50.5 million), representing a small increase (0.2 per cent) over the results of 1994, and accounting for 21.9 per cent of 1995 total project expenditures. UNFPA-executed projects totalled \$108.6 million in 1995 (1994: \$84.4 million), an increase of 28.7 per cent. Of this amount, \$46.4 million (1994: \$43.7 million), is for procurement assistance undertaken on behalf of Governments. Expenditures for projects executed by NGOs (which include intergovernmental institutions and other agencies) increased by 18.3 per cent over 1994 to \$34.7 million in 1995 (1994: \$29.3 million), constituting 15.0 per cent of project expenditures.

7. Table 5 shows 1995 expenditures by executing agency and by major expenditure component of the project budgets. It indicates that the major components of UNFPA-Funded projects consist of equipment and supplies, 34 per cent, and personnel services, 23 per cent (1994: 36 per cent and 22 per cent, respectively).

8. Table 6 shows an analysis of technical support services (TSS) - \$22.8m - and administrative and operational services (AOS) - \$8.1m, which totalled \$30.9 million (1994: \$27.7 million), or 9.9 per cent of total expenditure.<sup>1</sup>

9. Table 7 shows total project expenditures by country for 1994 and 1995.

10. Programme expenditures, including TSS and AOS, in 1995 (\$261.9 million) constituted 83.9 per cent of the total expenditures (1994: \$229.2 million, or 83.5 per cent of total expenditures). (See Table 1.)

#### E. Administrative and programme support services (APSS) expenditures

11. As shown in Table 8, the total net APSS expenditure in 1995 amounted to \$50.1 million (1994: \$45.2 million). Of this amount, headquarters net administrative costs totalled \$12.6 million (4.0 per cent of total expenditures) after the application of income credits, totalling \$5.6 million.<sup>2</sup> Programme support costs, including total country office costs, amounted to \$37.6 million, \$25.3 million (1994: \$21.8 million) of which was incurred by country offices, and the remainder (\$12.3

---

<sup>1</sup> Total AOS costs comprise three elements: (a) reimbursements to United Nations executing agencies for support costs - \$2.2m; (b) payment of overhead charges to non-governmental organizations (NGOs) executing UNFPA-financed projects - \$1.1m; and (c) reimbursements to UNFPA for support and procurement services provided to Government-executed projects - \$4.8m.

<sup>2</sup> These income credits are in respect of income earned by UNFPA for support and procurement services provided to Government-executed projects, and for projects executed under trust fund arrangements.

million) at headquarters.<sup>3</sup> Tables 12 and 13 show the historical distribution between administrative and programme support costs, and between headquarters and country offices, respectively. Relatively, the net APSS expenditure in 1995 shows a slight decline in comparison to 1994 when measured as a percentage of both total income and total expenditure. An analysis of the 1995 expenditure by component is contained in table 8.

12. During 1995, there were additional savings in the APSS expenditure with respect to official travel, publication and printing costs, and general expenses. In addition, a few country offices were not fully operational.

#### F. Status of reserves

13. Operational reserve: At its thirty-eighth session, the Governing Council decided (in decision 91/36) that the level of the operational reserve should be set at 20 per cent of regular resources income for each year of the UNFPA work plan and that the level of the reserve would be reviewed every other year. In accordance with this decision, the operational reserve was increased from \$53 million to \$63 million in 1995.

14. Field office accommodation reserve: A reserve for field office accommodation amounting to \$5 million was approved by the Governing Council for 1992-1993 (decision 91/36, para. 17). The amount of \$1 million was utilized in 1994 towards the cost of construction of common premises for organizations of the United Nations in Cape Verde, Comoros, Equatorial Guinea, Guinea-Bissau, Maldives, Sao Tome and Principe, and Zambia.

#### G. Liquidity position

15. As at 31 December 1995, UNFPA held cash and investments amounting to \$189.5 million, which included \$67.0 million in investments of the reserves (1994: \$57.0 million) and \$48.7 million in investments for trust funds (1994: \$21.0 million). Net current liabilities of approximately \$99 million relate to the remainder of the cash balance (table 2).

---

<sup>3</sup> The administrative and programme support services budget consists of four programmes. Administrative costs include programmes I (executive direction and management), and II (administration, information and external relations services and programme coordination). Programme support costs that are exclusively devoted to programme development and implementation, include programme III (programme planning, appraisal and monitoring), and programme IV (which consists of UNFPA's Country Offices).

## H. UNFPA trust funds

16. Table 9 shows that in 1995 total income from donors for projects financed by trust funds, and from multi-bilateral sources, was \$33.2 million (1994: \$63.9 million). Total expenditures from trust funds were \$33.3 million (1994: \$59.8 million). The large expenditures in 1994 were the result of contraceptive procurement activities undertaken on behalf of Governments.

17. As at 1 January 1995, the unexpended balance of the trust funds was \$23.8 million, which, when added to the income received in 1995, resulted in a total amount available for programming of \$57.0 million. The unexpended balance as at 31 December 1995 of \$23.7 million is available to finance trust fund activities in 1996. Table 10 shows programme expenditures from trust funds by country for 1994 and 1995. These figures include project costs and support costs paid by trust funds.

This category comprises support costs to UNFPA for procurement services provided, and overhead charges assessed by UNFPA to a / Government-executed projects. Beginning with the biennium 1986-1987, these support cost credits have been applied to the APSS budget as approved by the Governing Council in decision 86/35, paragraph 10. (In previous years these costs were included under programme expenditures.)

b / In 1985, and prior years, all field costs were included in programme expenditures. Beginning with the APSS biennial budget for 1986-1987 the APSS expenditure is net of credits reported in footnote 2 of the text (see paragraph 11). In 1986 and 1987 the salary costs of UNFPA international field office staff were included in the APSS budget, and all other costs of the UNFPA field offices were reported under programme expenditures. Since January 1988, all field office costs are included in the APSS budget.

c / The new successor support-cost arrangements began in 1992. A breakdown of technical support services (TSS) costs and administrative and operational services (AOS) costs for United Nations agencies, UNFPA and NGOs, including intergovernmental institutions and other agencies, is contained in table 6.

a./ See paragraph 11, footnote 3.

b./ In 1985, and prior years, all field costs were included in programme expenditures. Beginning with the APSS biennial budget for 1986-1987 the APSS expenditure is net of credits reported in footnote 2 of the text (see paragraph 11). In 1986 and 1987 the salary costs of UNFPA international field office staff were included in the APSS budget, and all other costs of the UNFPA field offices were reported under programme expenditures. Since January 1988, all field office costs are included in the APSS budget.
