## PROGRAMME PLANNING: THE THIRD PROGRAMMING CYCLE, 1982-1986

### Illustrative indicative planning figures (IPFs) and Special Programme Resources

#### Addendum

#### Note by the Administrator

1. In the Administrator's note to the Council on illustrative IPFs for 1982-1986 (DP/1982/21, paragraph 4), it was reported that the World Bank was actively collaborating with UNDP to obtain the necessary statistical data needed for calculating a final illustrative third cycle IPF for Equatorial Guinea.

2. Those data have now been supplied by the World Bank and they indicate a final illustrative third cycle IPF for Equatorial Guinea of \$11.75 million. Accordingly, this figure is recommended to the Council for its approval.
