POLICY

FINANCIAL, BUDGETARY AND ADMINISTRATIVE MATTERS

UNDP FINANCIAL REGULATIONS

Matters on which consensus was not achieved
at the twenty-eighth session

Note by the Administrator

Summary

This document provides the text of those financial regulations on which consensus was not reached at the twenty-eighth session of the Governing Council as well as the text of subparagraphs 8(b) and 8(c) of decision 81/16, which the Administrator has identified as the other questions on which consensus was not reached at the twenty-eighth session.

In accordance with decision 81/46, these matters are to be considered by the Budgetary and Finance Committee during its meeting commencing immediately prior to the twenty-ninth session of the Governing Council.

1. At its twenty-eighth session the Governing Council decided that the Budgetary and Finance Committee would consider during its meeting commencing immediately prior to the twenty-ninth session those parts of the financial regulations and other questions on which consensus was not reached at the twenty-eighth session (decision 81/46).
2. The financial regulations on which consensus was not reached at the twenty-eighth session were those contained in the Administrator's proposals for new financial regulations as regulations 3.5, 3.6, 12.3 and 12.4 (DP/552/Add.1), as well as a new regulation 3.6 which was proposed at the twenty-eighth session. (These were subsequently renumbered 4.5, 4.7, 13.3, 13.4, and 4.6 respectively, following the approval by the Council of a new Article III, entitled "Accountability".) The Council decided that these five regulations should remain in brackets and that the old financial regulations 6.4, 6.6, 4.2 and 4.3 should apply until a decision was reached at the twenty-ninth session of the Governing Council (decision 81/28, paragraph 2). The text of the five proposed new regulations and of the four old regulations, as presented in the UNDP Financial Regulations issued in December 1981 (UNDP/FIN/REG/1), is attached as annex I to this note.
3. With regard to other questions on which consensus was not reached at the twenty-eighth session, the Administrator, in a note verbale dated 30 July 1981, has identified these as the matters dealt with in subparagraphs 8(b) and 8(c) of decision 81/16, Preparation for the third programming cycle, 1982-1986. The text of these two subparagraphs, which also appeared as subparagraphs 16(b) and 16(c) of decision 80/30, is attached as annex II to this note.
4. For the convenience of the members of the Council, the attached regulations and the two subparagraphs of decision 81/16 have been identified in annexes I and II by the letters A to L. The following observations are also intended to assist the Council in its deliberations on this matter.
5. Proposed regulations 3.5 and 3.6 (A and C) are identical with the current regulations 6.4 and 6.6 (D and F). Proposed regulations 12.3 and 12.4 (G and I) are the same in substance as the current regulations 4.2 and 4.3 (H and J).

6. The Administrator did not propose changes in these regulations dealing, inter alia, with the currency of contributions, because the Council had not yet resolved differences of view on the policy issues involved.

7. These policy issues are represented in bracketed paragraph 8(b) of decision 81/16 (identified as K in annex II). The words contained in round brackets reflect proposals put forward by two groups of members and the two different versions of this subparagraph can be stated as follows:

Version 1: "In view of the multilateral nature of the Programme, non-recipient donor countries which make their voluntary contributions wholly or partly in non-convertible currencies shall pay a gradually increasing share of their contributions in convertible currencies so that their contributions will be fully convertible by the year 1985."

Version 2: "In view of the multilateral nature of the Programme, non-recipient donor countries which make their voluntary contributions wholly or partly in their national non-convertible currencies are requested, if possible, to pay a gradually increasing share of their contributions in convertible currencies."

8. It will be necessary for the policy issues in the above versions to be resolved before the financial regulations concerning the currency of contributions can be dealt with.

9. New regulation 3.6 (B in annex I) was proposed by a member as a basis for dealing with the contribution issue. When read together with A, it would have implications for the currency of contributions whenever previous accumulations of that country's currency amounted to one year's contribution. There was no indication by the member as to whether B was in addition to or an alternative to Version 1 of K.

10. As regards bracketed paragraph 8(c) of decision 81/16 (L in annex II), this proposal should be read in conjunction with the decision taken by the Council in February 1977, which read as follows:

/...

"(n) Requested the Administrator to take the necessary steps to ensure that all payments for goods and services (including the provision of equipment, subcontracts, transport, etc.) rendered to all UNDP-financed projects by entities headquartered in countries whose currencies have been accumulated in UNDP are made exclusively in currencies in which their country contribution is paid to UNDP until these accumulations are used, and further requested the Administrator to make a detailed status report to the Governing Council as soon as possible but not later than the twenty-sixth session of the Council on (i) the measures he has taken to implement this request; and (ii) the problems, if any, he has encountered in its implementation."^{1/}
