i/ At its twenty-ninth session, by decision 82/17, the Council allocated \$1.315 million of IPFs due to the independence of two countries, compared with the immediately prior situation. Antigua and Barbuda was increased by \$665,000, from \$1.1 million to \$1.765 million, and Belize was increased by \$650,000, from \$1.0 million to \$1.650 million. The total increase of \$1.315 million was financed as follows: \$499,000 was charged against the balance remaining in "Future Participants" prior to the twenty-ninth session; and the remainder, i.e. \$816,000, was financed from the second cycle's Programme Reserve. This latter financing from outside the IPF therefore served to increase the aggregate level of the second cycle IPF. Prior to the twenty-ninth session, this aggregate was \$2,461.550 million. With the addition of \$0.816 million from the Programme Reserve, the new second cycle aggregate IPF is \$2,462.366 million.

a/ This table includes projects financed by the Indicative Planning Figures (IPFs), Special Programme Resources, Special Measures Fund for Least Developed Countries, Special Industrial Services and cost sharing, experts who were members of firms and organizations working under subcontract to the Participating and Executing Agencies as well as OPAS and associate experts.

b/ The total differs from table 8 because some experts had more than one as well as assignment during the year concerned.

c/ This table includes projects financed by the IPFs, Special Programme Resources, Special Measures Fund for Least Developed Countries, Special Industrial Services, cost sharing, and participants in seminars, training courses and related projects.

d/ Total differs from table 8 because some fellowship awards called for study in two or more countries.

Note: The relationship between the UNDP-assisted projects and the reported investment commitments is classified by the following three category classification system:

Category A relates to reported investment commitments for which the UNDP-assisted projects carried out micro-type pre-investment studies such as identification studies, pre-feasibility studies, feasibility studies, final engineering and design, etc., for one or more specific investment project programmes;

Category B relates to reported investment commitments which resulted from UNDP-assisted macro-type studies, such as general area or regional planning studies, sector or subsector development studies, natural resources surveys, master plans, etc;

Category C relates to reported investment commitments for which the UNDP-assisted projects are providing technical assistance support, such as assistance in the execution and supervision of reported investment projects, training of required technical staff for the reported investment, etc.
