a/ Data based on reports from 86 UNDP field offices.

b/ i.e., where field office support of project was in the nature of a major contribution. (e.g. expert and equipment clearances, fellowship recruitment, local payments for agency regular or funds-in-trust expenditures.)

c/ i.e., where field office support was minimal compared to overall need for project support and administration. (e.g. initial discussions, information provided to other agencies.)

d/ Excludes 4 United Nations Fund for Population Activities (UNFPA) and 1 World Food Programme (WFP) project.

e/ Includes 2 projects approved in early 1985.

f/ No classification as to degree of field office involvement.

g/ Field office did not report expenditures for these projects.

h/ Excludes field office support for International Atomic Energy Agency (IAEA) projects.

i/ Where there is significant disparity between column totals, the accomplished protocols, in some instances, failed to specify: (a) degree of country-level UNDP support; (b) total project involvement. The sum total of support does not always tally with the grand total reported and the figures reflected in the grand total are based on the estimated project expenditures on a country-to-country basis as reported.

Table 2. Reported complementary external financing resulting from UNDP-supported projects and programmes, by recipient, 1984 ^{a/}

Recipient	Project title	Source of financing	Amount
			\$
Bahrain	Training in Demographic Analysis and Population Statistics, Phase II (BAH/82/P01)	United Nations Fund for Population Activities (UNFPA)	450 000
