Paragraph 3 should read:

3. The illustrative IPF for Singapore for the third programming cycle, 1982-1986, is \$7.5 million of which \$4.275 million covers the period 1982-1984. For programming purposes, 80 per cent of this amount or \$3.42 million has been taken into account for 1982-1984. In addition, an estimated carry-over of \$1.646 million of unspent IPF from previous cycles has been included for a total of \$5.066 million. The UNDP decision in November 1980 to undertake programming on the basis of 80 per cent of the illustrative IPF necessitated a review of the projects which were to be included in the fourth country programme. The result was that seven projects totalling \$2.76 million had to be deferred until such time as UNDP determines whether the full illustrative IPF would be available. The total UNDP input in projects included in the revised country programme is estimated at \$4.17 million, leaving a reserve of \$903,000. A financial summary is contained in the Annex.
