Annex II

BASIC INFORMATION ON THE PREPARATORY PROCESS OF COUNTRY PROGRAMMING

Region/ country	National plan or other guiding documents	Sectoral studies	Assessment of technical co-operation requirements	Assessment of prior country programme	Res. Rep. note	Agency programming mission	Co-ordination with other sources
<u>Africa</u>							
Liberia	Econ. recovery programme (ERP) (preparation of 3rd development plan postponed)	UNDP-assisted agric. sector study. Other sectoral studies by Govt. & donors	Technical assistance needs listed for Inter-Governmental Group for Liberia (1992)	Yes	Yes	FAO-World Bank mission	Yes
Malawi	Structural adjustment programme	FAO agricultural study and Govt.-UNDP studies	Govt.-UNDP task force studied technical co-operation requirements; national technical co-operation assessments and programmes (NATCAP) envisaged	Yes	Yes	No	Yes
Swaziland	Fourth national development plan 1984-1988	Studies in agriculture, industry, public administration, population and health	A NATCAP was undertaken in 1986 to form the basis of country programme	Yes	Yes	FAO programming mission, World Bank-ILO manpower survey	Yes
Tanzania	Econ. recovery programme (1986-1989)	Govt. studies and agency inputs	Tech. co-operation needs identified in light of ERP; NATCAP envisaged	Yes	Yes	FAO, ILO, UNIDO and ICAO missions	Yes
Zaire	Five-year plan (1986-1990) Public invest. prog. (1987-89)	Agricultural study by FAO/UNDP, industrial study by UNIDO, resources study by World Bank	Tech. co-operation needs and priorities identified by UNDP for preparation of 1986 consultative group meeting (CGM)	Yes	Yes	FAO, UNIDO and World Bank missions	Yes

Region/ country	National plan or other guiding documents	Sectoral studies	Assessment of technical co-operation requirements	Assessment of prior country programme	Res. Rep. note	Agency programming mission	Co-ordination with other sources
<u>Arab States</u>							
Egypt	National reform plan (1986); Five-year development plan (1987/88-1991/92) under preparation	Govt. studies	UNDP organized study on needs and modalities of technical co-operation	Yes	Yes	UNDP/FAO/IBRD mission for agriculture. Other agencies were consulted	Yes
Iraq	National development plan (1986-1990)	Govt. studies	Capabilities of state organizations determined technical assistance needs	Yes	Yes	No	Yes
Syria	Sixth five-year national development plan (1986-1990)	Several studies including European Economic Community (EEC)-financed industrial study and UNDP/World Bank energy study	Assessment based on national development plan and sectoral studies	Yes	Yes	Agencies contributed country programme preparation	Yes
<u>Asia and the Pacific</u>							
Burma	Fifth four-year plan 1986-1990	By World Bank, AsDB, UNDP and Govt.	Assessment by Govt. based on four-year plan and agency prop.	Yes	Yes	FAO, ICAO and ITU programming missions	Yes
Malaysia	Fifth Malaysia Plan 1986-1990	UNIDO master plan and Govt. studies	UNDP technical co-operation needs assessment mission	Yes	Yes	ILO/Asian Regional Team for Employment Promotion (ARTEP), UNIDO and UNFPA	Yes
Singapore	National development plan (1986-1990) and Economic Committee report	Govt. studies	Assessment based on national development strategy	Yes	Yes	Govt. felt no need for missions	Yes
Thailand	Sixth development plan (1987-1991)	Govt. studies for preparing sixth plan	Technical co-operation requirements assessed on sectoral papers and overall foreign aid strategy	Yes	Yes	Resident agency representatives and some visiting missions contributed to country programming	Yes

Region/ country	National plan or other guiding documents	Sectoral studies	Assessment of technical co-operation requirements	Assessment of prior country programme	Res. Rep. note	Agency programming mission	Co-ordination with other sources
<u>Europe</u>							
Albania	Five-year deve- lopment plan (1986-1990)	Govt. studies	Assessment primarily based on technological development needs of the country	Yes	Yes	No	Yes
Cyprus	Fifth emergency economic action plan (1987-91)	Govt. studies	An overall assessment of technical co-operation needs was undertaken as an integral part of the Govt. planning exercise	Yes	Yes	No	Yes
<u>Latin America and the Caribbean</u>							
Antigua and Barbuda	No formal plan	Govt. studies and technical co-operation programme exercise (mentioned in next column)	UNDP and Govt. did a comprehensive techni- cal co-operation needs identification exer- cise and produced a document on technical co-operation programme	Yes	Yes	Agencies represented in the Caribbean provided inputs	Yes
Argentina	Plan austral (1985-1989)	Govt. studies	Tech. co-operation requirements derived from analysis of current economic situation and govt. plans as well as results of the third country programme	Yes	Yes	Agencies evaluated their programmes and projects for new country programming	Yes
Bolivia	New economic policy (1985)	Govt. studies	Tech. co-operation requirements deter- mined in part through studies for country programme preparation and in part for pre- paration of 1986 CGM	Yes	Yes	United Nations agencies participated in country programming	Yes
British Virgin Islands	No formal plan	Govt. studies and technical co-operation programme exercise	Technical co-operation requirements identified within the framework of socio-economic development	Yes	Yes	Agencies represented in the Caribbean consulted	Yes

Region/ country	National plan or other guiding documents	Sectoral studies	Assessment of technical co-operation requirements	Assessment of prior country programme	Res. Rep. note	Agency programming mission	Co-ordination with other sources
Chile	Development Programme of the Chilean State (updated) (1983-1989)	Govt. studies	Tech. co-operation requirements based on the orientation of structural adjustment programme and medium- and long-term development objectives	Yes	Yes	UNDP organized sectoral programming mission on science and technology	Yes
Dominica	No formal plan	Govt. and World Bank studies	Govt. and UNDP prepared overall technical co-operation programme for the country	Yes	Yes	Agencies represented in the Caribbean consulted	Yes
Grenada	Public sector investment programme (1986-1990)	Govt. studies	Tech. co-operation requirements identified by Government surveys	Yes	Yes	Agencies represented in the Caribbean fully consulted	Yes
Guyana	Budget speeches	Govt. studies	Technical assistance needs identified on the basis of various studies	Yes	Yes	FAO and UNIDO missions and consultations with other agencies	Yes
Montserrat	National development plan (1985/88-1988/89)	Govt. studies	Tech. co-operation requirements identified within the framework of socio-econ. development	Yes	Yes	Agencies represented in the Caribbean provided programming inputs	Yes
Panama	Guidelines, objectives and action for the development of Panama (1986)	Govt. studies	Govt. prepared a technical co-operation plan based on the guidelines, objectives and action for the development of Panama	Yes	Yes	Agencies contributed to country programming	Yes
St. Christopher and Nevis	No formal plan	Govt. studies	Govt. prepared its own technical co-operation programme based on its development priorities	Yes	Yes	Agencies represented in the Caribbean contributed to country programming	Yes
St. Lucia	Public sector investment programme	Govt. studies	UNDP and Govt. carried out a comprehensive review of technical co-operation needs	Yes	Yes	Agencies represented in the Caribbean provided programming inputs	Yes

Region/ country	National plan or other guiding documents	Sectoral studies	Assessment of technical co-operation requirements	Assessment of prior country programme	Res. Rep. note	Agency programming mission	Co-ordination with other sources
St. Vincent and the Grenadines	National development plan (1986-88)	Govt. studies	Govt. and UNDP prepared overall tech- nical co-operation programme for the country	Yes	Yes	Agencies represented in the Caribbean consulted	Yes
Turks and Caicos	National develop- ment plan under preparation	British and Cana- dian Govt. studies	Technical co-operation needs are determined by development priorities and sectoral studies	Yes	Yes	No	Yes
Caribbean Multi- Islands	-	Studies by parti- cipating Govts. and United Nations agencies	Assessment based on the individual country needs assessments	Yes	Yes	Agencies represented in the Caribbean consulted	Yes

ABSTRACT OF MAJOR NATIONAL DEVELOPMENT OBJECTIVES, COUNTRY PROGRAMME ORIENTATION  
AND RELATIONSHIP WITH BILATERAL, OTHER MULTILATERAL AND REGIONAL PROGRAMMES

Region/ country	Special classification	National development objectives and strategy	Objectives selected for UNDP assistance and country programme orientation	Relationship with bilateral, other multilateral and regional programmes
<u>Africa</u>				
Liberia		Improving the management of the public sector; encouraging agricultural development; broadening economic activities	Improve the management of the public sector; develop agriculture and rural sector; support private sector initiative	Country programme relates closely to those of other donors, especially USAID and World Bank initiative
Malawi	Least developed country; landlocked developing country	Improving producer incentives in agricultural and industrial sectors; augmenting and diversifying export earnings; enhancing public sector resource mobilization; improving the efficiency of the Govt. operation; restructuring and reorganization of key development instit.	Strengthen national capability to meet priority manpower needs; strengthen Govt. capability to plan and manage economic and social development process; expand diversification of agricultural output; transform the economy toward industrialization	Country programme well co-ordinated with other multilateral and bilateral programme through the mechanism of round-table meetings and later CGM
Swaziland	Landlocked developing country	To maintain a free market economy and stimulate private investment; develop economic and social infrastructure; promote employment in agriculture and industry; restrict Government current expenditure; more efficient use of public funds	Public sector management; agriculture and manpower development	Linkages between country programme and other multilateral and bilateral sources established at the project level; country programme identified projects that could be financed by other sources
Tanzania	Least developed country	Increase food and cash crop production; rehabilitate physical infrastructure in support of directly productive sectors; increase capacity utilization in industry and restore industrial growth; restore internal and external balances in the economy	Support economic recovery programme objectives described under the previous column	Country programme reflects joint programming within United Nations system and with bilateral donors
Zaire		Improvement of econ. management capacity; strengthening of support structure for agricultural and industrial production; development of social sectors; development of transport and communication	In support of the objectives stated in the previous column	Country programme related to the programmes of other sources co-ordinated through CGM mechanism
<u>Arab States</u>				
Egypt		Increasing production and strengthening productive capacity particularly in agriculture and industry; achievement of food security; export promotion; structural transformation of the economy	Increased production in agriculture and attainment of food security; increased industrial production; human resources development; development of information system; improvement of public services; transfer of technology	Country programme related to programmes of other sources of external assistance

Region/ country	Special classification	National development objectives and strategy	Objectives selected for UNDP assistance and country programme orientation	Relationship with bilateral, other multilateral and regional programmes
Iraq		Increasing the growth rate through greater efficiency, better management and tighter financial control	Agriculture, industry, social services, infrastructure, health	Other assistance has been taken into account in preparing country programme
Syria		Agricultural development and food security; consolidation of industrial sector; development of oil and gas resources; expansion of electricity generation capacity	Measures for the development, management and conservation of energy-related natural resources; strengthening agricultural production; improvement of industrial production; acquisition and development of new technology; participation of women in development	Operational linkages at project level between country programme and other external programmes, particularly FAO, World Bank and IFAD.
<u>Asia and the Pacific</u>				
Burma		Development through self-reliance; maintenance of Burmese way of life; agric. expansion and diversification; expansion of agro-industrial base; and strengthening economic and social infrastructure	Modernization of agriculture; development of agro-industry; development of physical and social infrastructure	Assistance from other sources taken into account
Malaysia		Reactivate moderate growth with stability; lead role of the manufacturing sector; re-vitalization of agriculture; consolidation of public expenditure; rapid expansion of private investment; greater mobilization of domestic resources	Strengthening planning and implementation of the Govt.; development of human resources, science and technology	Other assistance, particularly from the World Bank, AsDB and United Nations agencies, complements country programme
Singapore		Restructuring the economy through sustained growth and increased productivity, especially of the manufacturing sector and supporting communication institutions	Upgrading of industrial technology; development of public sector services; upgrading of transportation and communication; development of manpower in the public sector	Assistance from other sources taken into account
Thailand		Economic and financial stabilization; natural resources development; rural development; urban development; human resources development; employment generation; science and technology; basic services	Economic management and institutional reform; human resources and social development; promotion of new technology; natural resources and environmental management	Country programme complements assistance from other multilateral and bilateral assistance

Region/ country	Special classification	National development objectives and strategy	Objectives selected for UNDP assistance and country programme orientation	Relationship with bilateral, other multilateral and regional programmes
<u>Europe</u>				
Albania		Development of industrial sector; intensification of agricultural programme; pursuit of technological and scientific revolution; and more effective social services	Development of higher education; scientific and technological development; and health	Country programme complements the programmes of other United Nations system organizations
Cyprus		Attainment of highest possible rate of growth; maintenance of full employment; achievement of internal and external stability; restructuring the economy towards sectors having comparative advantages; achievement of more equitable distribution of income; conservation of environment	Improvement of industrial competitiveness; long-term resource management; improvement of public sector efficiency	Government will utilize country programme mechanism for identification of other sources of funding for its technical co-operation needs
<u>Latin America and the Caribbean</u>				
Antigua and Barbuda	Island developing country	Reduce the imbalance in the economy created by the dominance of tourism through emphasis and diversification of agriculture and manufacturing; develop institutional capacity of the islands as location for offshore enterprise	Rehabilitation of agriculture; promotion of light manufacturing industry; tourism development and employment creation; attention to social sectors	Country programme used as frame of reference for technical co-operation from all sources
Argentina		Increase capitalization of the country; increase and expand exports; ensure equitable distribution among all social sectors	To increase economic growth and productivity in agriculture, industry and exports; to improve managerial capability in public sector; to promote technological development; to support policies to solve social emergency; and to promote technical co-operation among developing countries	Country programme closely related with programmes of other sources; UNDP is instrumental in implementing loans from IDB and World Bank and facilitating co-operation with Government of Italy
Bolivia		Reactivation of productive apparatus; strengthening the capacity of the Govt.; improvement of public enterprise management; creation of employment	To expand and diversify agricultural production; reactivate, rationalize and diversify industry especially through private sector; strengthen and consolidate Govt. entities for energy resources; modernize public sector management; more equal distribution of social services; development of tourism	Country programme highlights its linkages with programmes of other sources

Region/ country	Special classification	National development objectives and strategy	Objectives selected for UNDP assistance and country programme orientation	Relationship with bilateral, other multilateral and regional programmes
British Virgin Islands	Island developing territory	Reduction of imbalance between local and foreign participation in economy; train entrepreneur particularly in hotel business; increased employment of local labour force; diversification of export market; establish linkages between tourism and other sectors	Development of physical planning infrastructure; development of agriculture; expansion of tourism; development of other socio-economic sectors	Country programme used as a frame of reference for all technical co-operation programmes
Chile		Achieve self-sustained growth; achieve a level of social development compatible with elimination of poverty; achieve an effective degree of economic decentralization	Scientific and technological development; decentralization of capital resources, population and regional development; support TCDC activities	Country programme complements programmes of other sources
Dominica	Island developing country	Diversification of production, particularly for export markets; increased public savings and reduction of unemployment	Manpower development and training; strengthening administration and planning; agriculture and agro-industry; and infrastructure	Country programme as frame of reference for external technical co-operation, linkages with regional programme
Grenada	Island developing country	Achieve self-sustained growth through development of tourism, agriculture, manufacturing, and export promotion	Manpower development and employment; infrastructure development; diversification of agriculture; tourism development and social services	Country programme as frame of reference for technical co-operation from all sources
Guyana		Emphasis on efficient production; export drive focusing on non-traditional commodities; satisfaction of health and other basic needs; restructuring corporate administration and regulatory bodies; devolution of authority to the regions	Optimizing output of productive sectors; improvement of public sector planning and management	Country programme complements programmes of other sources
Montserrat	Island developing country	Revitalize the economy through simultaneous development of tourism, manufacturing, agriculture and social sectors	Increase agricultural production; improvement of educational system; improvement of health and services	Country programme used as a frame of reference of other programmes
Panama		Industrial development for import-substitution and exports; increased competitiveness of agricultural exports; best use of Panama's geographical position; strengthening of the parastatal bodies and fiscal administration	Development and promotion of Panama's geographic position; modernization and efficiency of the public sector; productivity and competitiveness of the productive sectors; attention to marginal areas	Country programme complements programme of other external sources

Region/ country	Special classification	National development objectives and strategy	Objectives selected for UNDP assistance and country programme orientation	Relationship with bilateral, other multilateral and regional programmes
St. Christopher and Nevis	Island developing country	Diversify the economy to create employ- ment and earn foreign exchange through tourism development, high-value non- traditional agriculture and small-scale industries	Agricultural diversification; improve- ment and revision of legislation; cottage and small-scale industry development; tourism development	Country programme used as frame of reference for all external technical co-operation; linkage with regional programme
St. Lucia	Island developing country	Structural adjustment of the economy through strengthening agriculture, tourism and manufacturing sectors	Agriculture development and diversifi- cation; institutional strengthening within public sector; other special areas	Country programme as frame of reference for all external techni- cal co-operation; linkage with regional programme
St. Vincent and the Grenadines	Island developing country	Economic growth; diversification of product base; and redistribution of socio-economic development benefits	Planning and plan implementation; agriculture diversification; institutional strengthening of public services; other supportive activities	Country programme as frame of reference for all external techni- cal co-operation; linkages with regional programmes
Turks and Caicos	Island developing territory	Development of tourism; fisheries development; upgrading of civil aviation	Policies and improvement of infra- structure; marine resources policy and programme; export promotion; human resources development; health services development	Country programme closely related to British and Canadian assistance
Caribbean Multi- Islands	Island developing countries	Strengthening of the Organization of East Caribbean States (OECS) integration movement; achieving benefits of inter- country co-operation to overcome constraints of small economies	Agric. diversification; improved public sector management; human resources development; strengthening co-operation between OECS and Latin America	The programme is related with the individual country programmes and the regional programme
